

The table below displays the GRI aspects that Hydro has chosen to merge or rename in the visual presentation of our materiality analysis, page 65 in the Annual report 2014. We have renamed aspects in order to make the titles more intuitive in our materiality process and more in line with the corresponding indicators that are material for Hydro. The merger is primarily done on groups of aspects that concern similar issues, or on aspects that is natural for Hydro to address as a whole.
